## When the best of the best call Lake Tahoe home, it's pretty clear there's something incredible about this place.

A region that produces more winter Olympians than anywhere else in the country must have a secret stash of perfection. Could it be extraordinary dumps of snow? Consistently amazing skiing and riding conditions? Outrageous elevations? All of the above? The answers are yes, yes, yes and yes.

Welcome to Lake Tahoe, folks. It's time to play where the big boys and girls play.

### Let's start with the variety, shall we?

Lake Tahoe is home to the largest collection of ski and snowboard resorts in all of North America, adding up to a monstrous 22,060 skiable acres. That's nearly 35 square miles ... 16,940 football fields ... or as we like to say, a heck of a lot of terrain.

It's your call, so spend time wherever you like. Choose from steeps and speedways, bowls and bumps, powder and packed. Soar through a terrain park like you're collecting frequent-flier miles. With the Lake Tahoe brand of variety, you can test your skills at everything—day after day after day.

### Even Mark Twain gushed about the splendor.

In *Roughing It*, a travelogue written in 1862, Mark Twain wrote, "Three months ... on Lake Tahoe would restore an Egyptian mummy to his pristine vigor ... I do not mean the oldest and driest mummies, of course, but the fresher ones." Be honest—have you ever read a travel recommendation better than that? Twain was definitely onto something. Lake Tahoe is the tenth deepest lake in the world, boasting water clarity to 70 feet. "So singularly clear was the water," he wrote, "that where it was only twenty or thirty feet deep, the bottom was so perfectly distinct that the boat seemed floating in the air!" We couldn't possibly make this stuff up. It's really that spectacular.

Consider the beauty of the lake, add the majesty of the mountains, and toss in the abundance of snow, and the result is the perfect package. Mark Twain knew it. Our Olympians know it. And you can know it, too.

## Here, snow and sun are in perfect proportion.

There's no doubt that Mother Nature has chosen Lake Tahoe as her favorite child. Every fall and winter and well into spring, she blesses us with an average of 500 inches of snow, so it's not unusual for things to get rolling as early as October and last as late as July. In a single week in March 2014, five feet of fresh snow fell on the Ski Lake Tahoe resorts, creating the deepest powder conditions of the season. Yep. We said March—late in the month, in fact—when resorts in other parts of the country were bidding adieu to winter sports.

All that snow is balanced by an average of 300 days of sunshine each year, so you get to ski and board with the sun on your face, pure joy in your heart, and a fabulous snowpack under your feet.

## We'll keep you busy — we promise.

Whatever's on your list for a winter vacation, it's yours for the asking at Lake Tahoe. In addition to offering every imaginable snow sport, the region is also home to fabulous live entertainment, cabaret shows, gaming, art galleries, après-ski festivities, fine dining, and endless fun for the kids.

So whether you're traveling on your own, with your best buddies, with the love of your life, or with your family, you'll be happily entertained from sunrise to sunset.

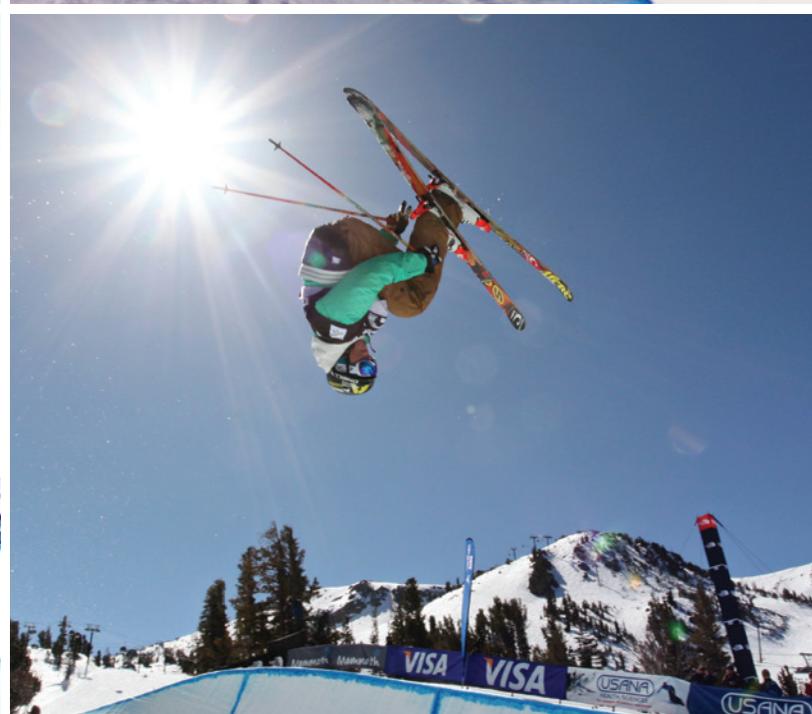

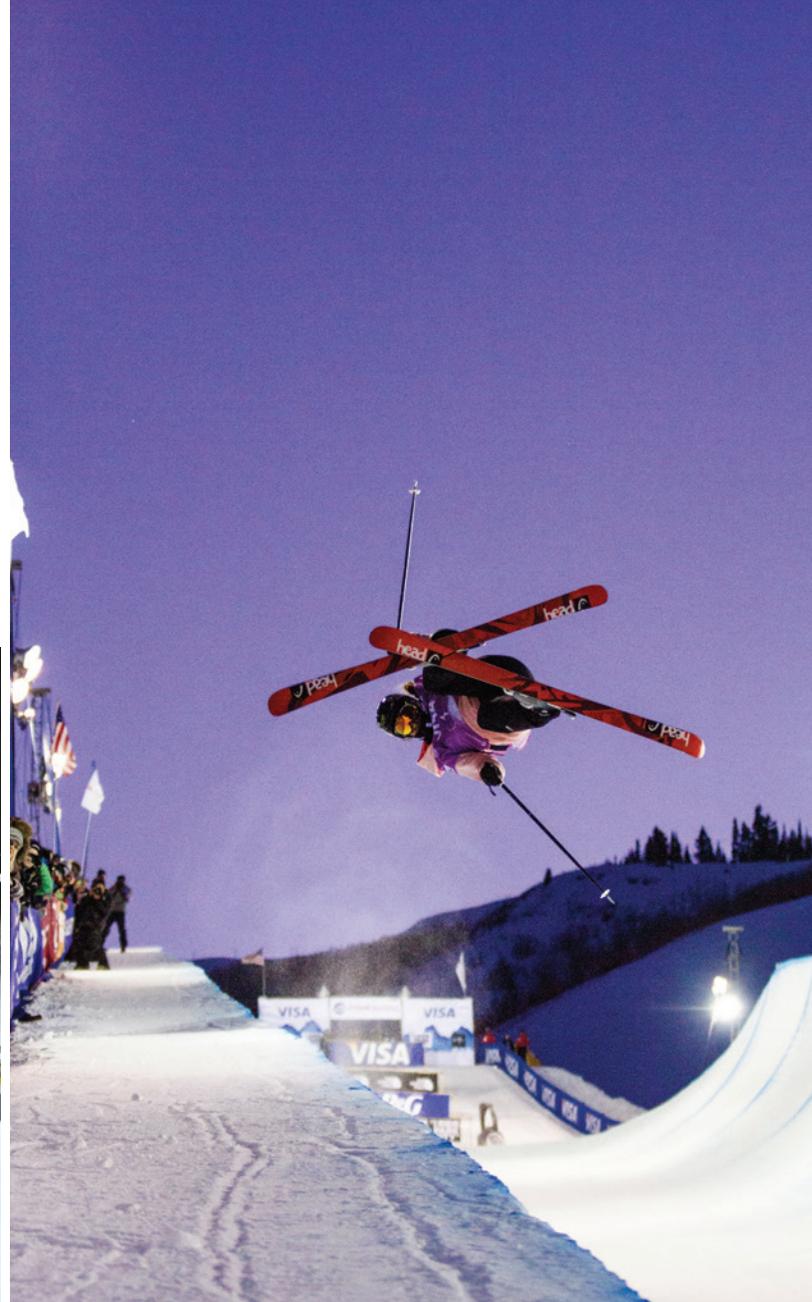

### Lake Tahoe's accolades are piled up as high as our Olympic medals and our snow:

# Lake Tahoe makes strides in cross-country skiing.

Seven Lake Tahoe resorts—including Kirkwood, Northstar California, and Squaw Valley—feature cross-country skiing, and you can snowshoe just about anywhere that appeals to you. Camp Richardson Historic Resort offers a winter wonderland for skiing and snowshoeing, with 10 kilometers of groomed and marked trails right

on the shores of Lake Tahoe. Sugar Pine Point State Park, along the lake's west shore, features more than five miles of cross-country terrain for both experienced and beginning enthusiasts. The biathlon and cross-country events of the 1960 Winter Olympics were held in what is now Ed Z'berg Sugar Pine Point State Park.

# Nevada – A World Within. A State Apart.

Are you the breed of snow lover who knows in your soul that mountains are living, breathing things? Then you and your planks need to sample Nevada's goods.

Ruby, Santa Rosa, Schell Creek, Toiyabe, Carson and Sierra Nevada... these are the names that will give your heart the flutters. They're some of the 150 distinct mountain ranges that track a north/south longitude across the state, making it the most mountainous in the contiguous US (second only to Alaska if you're considering all of the United States). That means alps-like heli-skiing and backcountry bliss in the Rubies. Lift-served nirvana around Lake Tahoe and Las Vegas (yes, Vegas). And high-desert rollers with big, fat pillows of windblown fluff that'll write a big fat smile across your mug.

Then, when the day's done and the runs are run, you can après in true, unhinged Nevada fashion.

Nevada is for a special kind of snow lover. You, perhaps?

## So... what do you want to do first?

If your idea of the perfect winter vacation is filling every waking hour with fun and excitement, Lake Tahoe is the place to prove that theory. There's so much going on in the region that you can play, explore, and indulge nonstop for weeks, months—years, even—without once hitting the repeat button. Think we're exaggerating? Just take a look at what's in store.

### On the snow

With snow like Tahoe snow, it just makes sense to offer up masses of different ways to play in it. When you're not enjoying some of the best skiing and riding on earth, you can satisfy the little kid in you with snowtubing, snowbiking, snowmobiling, snowshoeing, snowkiting, and snowsurfing. If it's a sport that starts with "snow," you'll find it here. You can also enjoy cross-country skiing, sledding, and snowshoeing at the new Tahoe City Winter Sports Park. Located on the Tahoe City Golf Course, it offers ideal terrain enhanced by incredible views of the lake. And if you want to savor a quiet bit of romance, try a moonlit sleigh ride through some of the most breathtaking scenery imaginable.

### Off the snow

Take a cruise on an authentic paddle wheeler and see for yourself why people have been writing about the stunning beauty of Lake Tahoe since forever. Soar far above the mountains in a hot-air balloon or helicopter. Shop like a pro, play a round of golf—even in winter—or have a picnic in the sun. Savor a taste of culture at an art or photography exhibit. Experience the magic of live theater or a concert. It's all here, just waiting for you.

### Special events

At Lake Tahoe, just about anything is cause for celebration. Fresh powder! A full moon! Tuesday! Throughout the season, special events rule. From celebrity ski races to freestyle championship events ... from winter carnivals to ski-run torchlight parades ... from wilderness awareness trips to mountain treks ... there's something special going on at every turn. For a true taste of the Tahoe winter spirit, hang out with the locals at Heavenly Holidays, a two-week festival held in late December in Heavenly Village. The event features caroling, live music, ice sculpting, magicians, jugglers, professional ice-skaters, live ice sculpting, and a parade.

### Reno happenings

Reno is the perfect place to spend a day or two when you dare to break away from the mountain. All winter long, you can participate in pub crawls and wine walks along the Truckee River and neighboring streets in downtown Reno. For the height of festivities and fundraising, you'll want to catch the Santa Pub Crawl on December 13. Nearby Sparks hosts the Sparks Annual Hometowne Christmas Celebration on Victorian Square December 5-6, and classical music lovers can celebrate the holidays at the Nevada Chamber Music Festival December 26-31.

For a bit of education and inspiration, be sure to stop by the Nevada Museum of Art, the only nationally accredited art museum in the state of Nevada; the Nevada Discovery Museum, a hands-on learning environment for kids; or the National Automobile Museum, one of the top five in the country. And for a down-country good time, you'll want to check out the new Gilley's Saloon, styled after the dance hall and saloon featured in the film *Urban Cowboy*.

## Total indulgence

Occasionally, it just feels right to give in to a little "me" time. When the body and soul demand pure relaxation, try a dip in an ahhh-inspiring hot spring or bubbling hot tub. Rejuvenate with a spa treatment or muscle-soothing massage and let all but the most peaceful thoughts slip away. After all, you've been playing pretty hard. You deserve this.

## Electric nightlife

The excitement ramps up when the sun goes down, so bring along as much energy as you can muster. Pretend you're an extra in *Casablanca* and try your hand at gaming. We've got blackjack, poker, Pai Gow, roulette, craps, and slots, so you can cruise around the casinos to find where your good luck takes you. Lake Tahoe is also the place to find absolutely top-drawer entertainment, featuring singers, bands, and comics you actually know and love. Want more? Catch a cabaret show or Nevada-style revue, luxe out in a dazzling nightclub, or meet up with your pals in one of Tahoe's many one-of-a-kind bars.

## Culinary delights

Food, glorious food! Just pick a country and we'll provide the restaurant. Lake Tahoe offers options from around the world, so you can take a culinary side trip to France, Italy, Spain, Mexico, Japan, China, Thailand, Greece, or the good ol' USA. From steak to sushi ... from pasta to pad thai ... from enchiladas to empanadas ... it's on the menu. And whether you're in the market for an elegant candlelit dinner or a quick-and-easy meal, we'll serve it up in style.

Visitors to South Shore might want to take advantage of Lake Tahoe Restaurant Week, featuring specially priced and prix fixe menus highlighting the theme "Made with Altitude." Hearty breakfasts, gourmet burgers, fine wines, steaks, sushi, seafood, tapas, and mountains of decadent desserts will be on the menu mid-January.

## Now I lay me down to sleep... but not for long.

With all there is to do at Lake Tahoe, sleep is probably the last thing on your agenda. But when you get to the point where you just can't keep your eyes open for another minute, we've got you covered.

Whether your idea of perfection is a ski-in/ski-out slopeside condo, a casino-hotel packed with amenities and 24/7 entertainment, a European-inspired chalet hidden in a forest clearing, or a fuss-free apartment with all the amenities you could possibly want or need, it's here. In spades.
